

Sprint 3 Report

Heading

- PeersChat
- PeersChatPeople (PCP)
- 7/21/20

Actions to Stop Doing

- Working separately on modules without collaboration or knowledge of the system as a whole
- Putting everything until the last minute
- Pushing unfinished code to the master branch

Actions to Start Doing

- Testing modules more thoroughly
- Communicating with team members and being responsive to those communication efforts
- Creating user stories with better defined roles, less encompassing objectives

Actions to Keep Doing

- Collaborating on different modules for the project
- Helping each other work out issues and understanding of other's code
- Peer Reviewing each other's work
- Documenting thoroughly

Work Completed/Not Completed

- Completed: User Story 2
- Not Completed: User Story 1

Work Completion Rate

- Total user stories completed: 1
- Total estimated ideal work hours completed: 72
- Total days during Sprint 1: 7
